

SUCCESS ACTIVATION SYSTEM™

Intuition • Clearing • Activation • Healing

How to Start Your Session

1. **Prayer:** Always open with a prayer. It is a vital element in the success activation system. Keep it simple.
“I am one with God / Spirit / Universe and we work together as a team.”
2. **Intention:** Be very clear on what you want to achieve. Keep it simple and in integrity.
3. **Double grounding (Earth and Source):** Connect deep into the Earth; have your client extend their tailbone into a cord and plug it into the center of the Earth to facilitate releasing the energy. And connect from your Crown chakra or top of the head into God / Spirit / Universe.
4. **Neutrality:** Drop from your mind into your heart (and have your client do the same.) Remove your Ego mind during the session. (Periodically check where is the source of your information coming from.)
5. **Clear the space:**
 - a. Close openings to other worlds
 - b. Remove all entities and energies that are not of the highest level of consciousness
 - c. Double check that the space is clear
6. **Protection:** Put a triple-layer shield on you and on your client
