Clearing Practice #1: Clearing Archetypes (Use chart 6)

An archetype is a persona, or a model that we express (or sometimes carry silently!).

It's the "child" that doesn't care about working, the "producer" that feel the need to make money or produce something, the "wife/husband", the "daughter/son", the "mother/father", etc. All these types of expression

What is your primary way of getting information? Do you hear them, feel them, know them, see them?

What if you could add another way of receiving guidance that would be fun and easy? What would this do for you?

Thank your Source for continuing to send you messages and declare to the Universe that you want to open yourself to receiving information by..... (seeing pictures in your head, feeling them in your body, hearing clear words, etc.) Choose a way to receive intuition that you haven't explored yet.

You can use your charts to clear yourself and open yourself to receive guidance in a new way.

Intuitive Practice #2: Recognize when you are not neutral

Check your emotions today.

Are you afraid of a particular situation having a particular outcome? Are you attached to a certain outcome?

Practice being NEUTRAL. Put yourself back into your Center.

Then, ask your Higher Self to give you some input on what was holding you in this place. Research and clear any program, contract, energy associated to this issue.
